

Company Profile

Capital Formwork (NSW) Pty Ltd is an experienced, Illawarra-based formwork company that commenced operations in 2008.

We provide quality formwork services across residential and commercial construction projects. We specialise in all suspended and ground formwork for concrete and reinforcement projects.

Our Director, Roni Damcevski, has over 30 years' experience in delivering outstanding formwork services, and offers a wealth of relevant knowledge for the benefit of our company and the construction industry generally.

We employ skilled tradesmen and carpenters, many of whom are long-term employees with several years of experience in the construction industry. They share our company's values and are committed to excellence in service delivery.

Our high-performance team is customer-focussed and can be relied upon to complete projects on time and on budget. We are committed to meeting the expectations of our customers by being productive, communicating effectively and paying attention to detail.

We deliver projects safely, with quality tools and equipment. We offer a truck and crane hire service for interested clients. We have also fostered a 'can do' attitude, being always ready to solve problems with practical or innovative solutions.

Capital Formwork has had the privilege of providing services for many respected builders. Attached is a list of our more recent customers and projects.

We take our work seriously and would value the opportunity to partner with you to deliver quality construction projects.
